SECTION 4. FIRST-AID MEASURES

First-aid Measures

Inhalation

If irritation is experienced, remove person to fresh air.
 If experiencing respiratory symptoms (e.g. coughing, shortness of breath, wheezing), call a Poison Centre or doctor.

Skin Contact

IF ON SKIN (or hair), remove all contaminated clothing and launder before reuse.
 Rinse skin with plenty of water or shower.
 Call a physician if irritation develops or persists.

Eye Contact

Immediately rinse the contaminated eye(s) with lukewarm, gently flowing water for 15-20 minutes, while holding the eyelid(s) open.
 Remove contact lenses, if present and easy to do.
 If eye irritation persists, get medical advice or attention.

Ingestion

Never give anything by mouth if person is rapidly losing consciousness, or is unconscious or convulsing. Do not induce vomiting.
 If vomiting occurs naturally, lie on your side in the recovery position. Rinse mouth with water again.
 Immediately call a Poison Centre or doctor.

Most Important Symptoms and Effects, Acute and Delayed

May irritate the respiratory system.
 May cause severe eye irritation or burns.
 May cause skin irritation on prolonged contact.
 Harmful if swallowed.

Immediate Medical Attention and Special Treatment

Target Organs

Eyes, skin, respiratory system.

Medical Conditions Aggravated by Exposure

Asthma, skin allergies.

SECTION 5. FIRE-FIGHTING MEASURES

Extinguishing Media

Suitable Extinguishing Media

Foam, alcohol foam, carbon dioxide, dry chemical and water fog.

Specific Hazards Arising from the Product

Closed containers may explode from internal pressure build-up when exposed to extreme heat and discharge contents. Liquid content of container will support combustion. Overexposure to decomposition products may cause a health hazard. Symptoms may not be readily apparent. Obtain medical attention. Hazardous decomposition products include carbon dioxide, carbon monoxide and other toxic fumes.

Special Protective Equipment and Precautions for Fire-fighters

Containers may explode if heated.
 Wear full fire fighting equipment and self contained breathing apparatus.
 Fire-fighters may enter the area if positive pressure SCBA and full Bunker Gear is worn.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment, and Emergency Procedures

Eliminate all ignition sources. Use grounded, explosion-proof equipment. Wear a NIOSH approved air-purifying respirator with an organic vapour cartridge. Wear protective gloves and eye protection as a precaution. Increase ventilation to area or move leaking container to a well-ventilated and secure area.

Environmental Precautions

Do not allow into any sewer, on the ground or into any waterway.
If the spill is inside a building, prevent product from entering drains, ventilation systems and confined areas.
Minimize the use of water to prevent environmental contamination.

Methods and Materials for Containment and Cleaning Up

Contain and collect spillage with non-combustible absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations.

SECTION 7. HANDLING AND STORAGE

Precautions for Safe Handling

Do not get in eyes, on skin or on clothing.
Do not spray on an open flame or other ignition source. Do not pierce or burn container, even after use.
Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
Avoid breathing in this product.
Wear gloves and eye protection as a precaution. Wear a NIOSH approved air-purifying respirator with an organic vapour / acid cartridge.

Conditions for Safe Storage

Store and use in a cool, dry, well-ventilated area. Do not store above 48 C (120F). Keep out of reach of children in a tightly closed container away from food, drink and animal feed.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control Parameters

Chemical Name	ACGIH TLV®		OSHA PEL		AIHA WEEL	
	TWA	STEL	TWA	Ceiling	8-hr TWA	TWA
Petroleum gases, liquefied, sweetened	1000 ppm					
Sodium Metasilicate			2 mg/m3			
Sodium nitrite	Not established					
Polyethylene glycol octylphenyl ether, liquids	Not established					

Appropriate Engineering Controls

Use ventilation adequate to keep exposures (airborne levels of vapour) below the recommended exposure limits.

Individual Protection Measures

Eye/Face Protection

Wear chemical safety goggles and face shield when contact is possible.
Eyewash stations and showers should be available in areas where this material is used and stored.

Skin Protection

Wear protective gloves and clothing to prevent skin contact.

Respiratory Protection

Avoid breathing vapours. In restricted areas, use approved chemical/mechanical filters designed to remove a combination of particles and vapour. In confined areas, use an approved air line respirator or hood. A self-contained breathing apparatus is required for vapour concentrations above PEL/TLV limits.
